WASBINGTON CITY: WEDNESDAY......May 28, 1978.

An interesting legal case is in progress in Baltimore. In the year 1866, Haslin, alias Tucker, was convicted of horse stealing in the circuit court for Charles county, and was sentenced to the penitentiary for the term of seventeen years and six months. When he had served out something more than six years of his term, he was pardoned by Governor Whyte on condition that he would leave the state of Maryland and never return. He returned to Baltimore last January, and soon after was arrested for alleged complicity in the Lampley murder. It was ascertained that he had no hand in the assassination of Mrs. Lampley, but in the meantime attention was called to his violation of the conditions of his pardon. He was brought before the court on Friday last, and the jury impaneled to try the questions of facts involved . returned an inquisition setting forth that Tucker is the same man who was sentenced in 1866, and that he did violate the terms of his pardon. Had the trial ended here, the prisoner would have been remanded to prison to serve out the remainder of his term; but his counsel made a motion in arrest of judgment, and upon this motion the constitutionality of the recommitment of pardoned convicts who do not observe the conditions of their pardon will be argued. Should the motion be overruled, the case, it is thought, will be carried to the court

Last summer the charitable of New York and Philadelphia raised large sums, which were devoted to giving free excursions to poor children. The keen enjoyment of the juveniles on these occasions, and the healthful effects of a day's frolic in the woods or on the water, were so noticeable as to convince those who had contributed to make the little ones happy that they had done a good deed, and they will probably be ready to aid a similar enterprise this summer. Arrangements are being made in Philadelphia to give the children free excursions again this summer, and it is to be presumed that New York will not be behindhand in the same direction. Why cannot the charitable of our city arrange for similar excursions this summer. The sum required would not necessarily be large, and the compensating results would certainly be satisfactory to every contributor. At any rate, if Washington is behindhand in this particular matter it will be because our citizens are drawn upon for the support of more charities than any other city of its size in the United States, and cannot afford to do more than they are doing at present.

A St. Louis correspondent of the New York Journal of Commerce asks that paper two questions, the answers to which are of interest to bankers throughout the country. The ques-I. Is it orever for a bank to loan money, tak-

ing as conateral security its own certificate of II. Can : bank afford to pay, upon one year deposits, interest at the rate of 7 per cent. per annum, or even more, if the market rate for money is steady at 10 per cent.?

The answer of the Journal to these queries is (1) that every national bank is prohibited by ection 35 of the act under which it is established from making "any loan or discount on the security of the shares of its own capital stock;" and (2) that in the opinion of the Journal no bank of discount should pay interest on deposits; but a margin of three per cent. would probably cover the expenses, although it would leave little or no profit, all things considered.

The New York legislature has under consideration an act amending the law of libel. It provides that no publisher or editor of a newspaper or other publication shall be arrested in an action for libel before final judgment shall have been entered against him. The New York Journal of Commerce endorses the proposed amendment, and says that while it does not impair the rights of persons who consider themselves libeled, they will be deprived of "the luxury of inflicting vengeance upon some editor who had told the truth (perhaps) about them by arresting him late at night and clapping him in jail" Another proposed amendment does away with exorbitant bail and places it at from \$2,000 to \$5,000.

The St. Joe region in Michigan on the east side of the lake from which the state takes its name, is noted for the frequency of its peach crop, which seldom fails even when the fruit not so far north is destroyed by late frosts. This fact, causes the land within the limits of the peach locality to sell for from five hundred to one thousand dollars per acre. It is well known that the country about Washington is a better peach region than St. Joe, and yet land does not cost more than about one-fifth as much.

It has been observed that on pieces of clover ground in the neighborhood of this city the cut worms are so abundant that in covering a hill of corn in planting from two to five of them will be exposed to view. Whether they are as plentiful on old ground or not we are not in-

A conference of the prohibitionists from all parts of the state of New York have unanimously repudiated the Dix beer compromise and declared for the "civil damage" provision. Some of them took the extreme ground that ale and beer as beverages are "the most costly, debasing and ruinous of all in general use."

Ex-Governor Wise, of Virginia, declines to run for governor on either the republican or

A. T. LONGLEY, Recorder. BOSADALIS, THE GREAT BLOOD PUBI-

BALTIMORE, January 1st, 1869.

Gentlemen:—It affords me pleasure to add my testimony to the wonderful effects of your truly excellent-medicine—Bosadalis. After suffering for two years fr m a shattered constitution, with scarcely a hope of restoration to my usual health, I was induced to try your Resadalis; after taking, according to your directions, Sechottles, I can truly say that I have been completely restored, as my many friends know, and I believe solely by the use of your medicine. I cordially recommend it as an excellent renovator and purifier of the blood. Truly yours.

FIRANCIAL AND COMMERCIAL.

There was more animation in the Wall street markets yesterday than for some time past, the chief movement being in stocks. The market opened quiet and firm, but an attack was made on Union Pacific bonds on the publication of the billof complaint in the litigation just begun at Hartford. The price of the stock was run down from 30% to 25%, but subsequently recovered to 26%. It is that the move is purely specular to was the charges made have been familiar to most persons for a long time past. The general market was affected by the decline in Union Pacific, Pacific Mail being the next heaviest loser, and declined to 41%, closing at 42%. The market closed heavy. 12%. The market closed heavy.

THE WEATHER.

WAR DEPARTMENT, Office of Chief Signal Officer, & WASHINGTON, MAY 28, 1873, 10:30 a. m. SYNCPSIS FOR THE PAST TWENTY-FOUR HOURS.—
The temperature has fallen over the country west and northwest of the Mississippi and Ohio valleys and in the upper lake region, with higher pressure, southwesterly winds, clearing and clear weather. Southwesterly winds, clearing and clear weather in Tennessee and the gulf states, with rain in the western gulf. Southerly winds, partly cloudy and clear weather in the lower lake region and middle states. Southerly winds, cloudy weather and falling barometer in New England and Canada.

PROBABILITIES.—For the middle states and lower lakes rising barometer, cooler, clearing weather and southwesterly to northwesterly winds. For Canada and New England clearing weather, southwesterly winds and falling temperature. For the south Atlantic states southwesterly winds, diminishing pressure, partly cloudy weather and occasional rain. For the gulf states and Tennessee southerly and southwesterly winds, cloudy weather and rain. For the lower Misseuri and Ohio valleys, and northward to Minnesota and the upper lakes, southwesterly to northwesterly winds, low temperature and generally clear weather. Reports are missing from the southwest, northwest, Montana and Oregon.

PRECORATION DAY.

pills are composed exclusively of vegetable ingredients, and although they entirely supersede the use of mercury, do not leave any of its in urious effects. They act directly upon the liver, and are a valuable remedy in all cases of derangement resulting from a disordered state of that organ, Liver Complaint, Bilious Disorders, Indigestion, Sick Headache, Typhoid Fevers, &c., &c., all succumb to the free use of Schenck's Mandrake Pills. For sale by all Druggists and Dealers.

How sad it is to see a young wife, a mother of family who requires all her physical strength to fulfill her household duties, and all her moral cepacities to accept the responsibility which falls upon her, to see her prostrated, losing every day her strength, feeling badly without being able to say why, but yet suffering enough to be utterly miserable! This state of weakness and debility is more fatal to her than a sewere spell of sickness, for in that case she will receive the proper care, as in the other she will linger months after months, not thinking worth while to see a physician about it, until nature, exhausted, gives out, and she is carried to the grave, when a little precaution in proper time would have spared her life. To prevent, to strengthen, to cure, nothing can compare with the LONG-LIFE BITTERS of Dr. L. G. BERTRAM. They are a safe and infallible remedy against malaria, dyspepsia, coetiveness, biliousness, headaches, morning sickness and all complaints peculiar to women. These Bitters, which are sold by all druggists, are, in consequence of their virtue and most agreeable taste, the medicine per excellence for ladies.

FROM THE EARLIEST AGES TO the present day, Scrofula has been the bane, and, as it were, the curse of mankind. So terrible and loathsome had been at some periods of the world's history that a person known to be infected with it would not be allowed to mix with society. Happily in our day the disease is stripped of its terror by the use of SAMARITAN'S ROOT AND HERB JUICES, and the victim of Scrofula, Ulcers, Sores, Pimples, Blotches, Tetters, &c., can be restored to sound health in a few weeks.
